

## Personalized products with your **logo**

At Seriline, you can easily order your personalized products. With over 30 years in the industry, you can feel safe that the knowledge you need is available from us. Seriline work with personalizing RFID products and other accessories according to the customer's unique needs. We have a modern and safe production, where there are lots of machines such as laser marking machines, hotstamps, laminating machines, instant printers, plotter cutting machines, RFID scanners, encoders and meters of plastic card printers with four-color printing.

Our studio will be happy to help you develop a layout that follows your graphic profile. Everything to meet your personalization needs. Production takes place with redundancy both at our office in Stockholm and at our office in Ronneby. Our modern machines together with our experienced coworkers guarantees a world-class result and service.

## Laser engraving

- we can laser engrave almost any material

### Laser engraving with high quality

- Effective and long-lasting for both indoor and outdoor use
- Smooth engraving surface
- The most environmentally friendly method on the market
- Engraves on almost all types of material

You can have your logo laser engraved on the products you usually order from us at Seriline. In Seriline's ordering portal, [Serix Online](#), you can easily order, for example, opening buttons, key fobs and yoyos with your company logo engraved in high quality.

We laser engrave opening buttons, key fobs, cards and much more. We also produce proof sheet with your own logo, as well as any readings needed for your access system. Our key fobs and yoyos can be engraved on both the front and back.

## Instant print

- color printed logos on your products

### Impressive print quality

- High resolution and photo quality images
- Resistant to water, scratches and sunlight
- 16 million colors
- 3D printing of logos
- Prints on almost all types of material

Did you know that you can have your logo printed in color on the products you usually order from us at Seriline? In Seriline's ordering portal, [Serix Online](#), you can easily order, for example, yoyos, key fobs and card holders with your company logo printed in high quality.

Our instant printer prints very nicely and in detail on any background color and on almost any material. You choose which motif you want. The printing technology enables the creation of stunning 3D textured and raised printing effects of logos.
