About Serix Online

We provide you with a customised portal, accessible via the Internet, for placing your orders. You can order different kinds of credentials, such as company ID cards, tags, access cards and optional accessories.

You can follow the process from order to delivery. There is also the possibility where the order must be approved by a designated person before it is processed for production. Thanks to the order history, you will not lose any more time. You will see what you ordered the last time and you can quickly adjust the information or repeat the same order.

The portal even offers a readback of the chip number for an easier activation in the passage system for instance. For customers who want to integrate orders from their own system we have a API that offers all the features available in the web portal.

Serix Online has proven to be a success as we today have over 15 000 companies who all use the service to conduct their orders.

Get started in 2 minutes!

1

Register Account

Register your account at
www.seriline.com

Choose among our standard layouts or a personal design which matches your graphic profile. If you are in need of a certain coding or reading for your cards then we'll be happy to solve it as well.

-It only takes 2 minutes!

2

Order

After the registration you will instantly be able to access the ordering portal and place your first order.

Simplify your ordering procedure

- from your unique selection of products

Profiled products

We will help you create a customized selection of products, both in terms of design and technique for your company.

Delivery options

You chose how you wish to have the products delivered – we ensure that they arrive at the right place at the right time.

⦿ **Quick** – We send the cards within 3 working days. The order will be sent the same day as ordering with a prioritized order.

⦿ **Easy** – Thanks to an easy user interface you can easily register personal information, add a picture and compliment with requested add-ons.

⦿ **Safe** – The buyer has full control over their orders and who has access to the account.
