

# ID06

Detta dokument är ett referensdokument som visar bilder på pass och nationella id för länder som det finns stöd för att validera för ID06 kort. Detta är ett levande dokument som kommer kontinuerligt att uppdateras. Titta på datum och version nedan för att alltid vara uppdaterad.

Kort förklaring av vad bokstavs och sifferkombinationen som finns bredvid typen av handlingen ex. Pass (EST-AO-03005) detta nummer är det nummer som finns i PRADO - offentligt register över äkta identitets- och resehandlingar som EU publicerar (<https://www.consilium.europa.eu/prado/sv/prado-start-page.html>). I de fall det inte finns denna något referensnummer är bild hämtad från annan källa.

Under varje landsnamn står det även vilken identifiering som görs av dokumentet (Personligt ID nummer/Pass nummer). Detta kommer att koppla skanningen /valideringen av personen och kort ordern.

Pass från vissa länder kräver en utökad kontroll vid dessa länder finns det beskrivet vad som behövs göras.

Dokument kan bli gröna i skannern då det är äkta handlingar, men information visas inte i systemet. Detta beror på att detta dokument inte har stöd för att validera sig i ID06 systemet.

This document is a reference document that shows pictures of passports and national IDs for countries that are supported for validation for ID06 Cards. This is a live document that will be constantly updated. Check the date and version below to always be up to date.

A brief explanation of what the letter and number combination is next to the Passport (EST-AO-03005) this number is the number contained in PRADO - public register of genuine identity and travel documents published by the EU (<https://www.consilium.europa.eu/prado/en/prado-start-page.html>). In cases where there is no reference number, the image is taken from another source.

Under each country name there is the identification type of the document (Personal ID number / Passport number). This will link the scan / validation of the person and the card order.

Passport from some countries needs an extended control. Information will be stated under the country name.

Some documents can get a green light in the scanner (validity is okay), but no information is shown in the system. This is because that the scanned document is not supported to be used to validate for ID06 Card.
